

Now Available!

Community WiFi Hotspots

In partnership with Boycom Internet, the Clearwater R-1 School District has made available 7 internet hotspots for district-owned Chromebook devices located at key locations within the communities that we serve. District-owned devices will automatically connect when brought within range of these spots. Internet access is only for school devices for educational purposes. All internet activity will be filtered/monitored just as it is on campus.

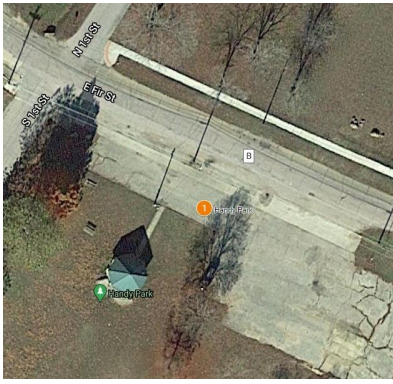

The following locations have kindly allowed the presence of these hotspots and our students while using them:

1. **City of Piedmont: Handy Park**, corner of Fir (B Hwy) and 1st Street
2. **First Midwest Bank of Piedmont**: South Main St., parking in South side lot
3. **Old Walmart Parking Lot**: Hwy HH across from the radio station
4. **Old IGA Parking Lot**: Rear Lot off French St.
5. **Patterson Community Center**: Parking area closest to highway
6. **Clearwater Fire Dept. Dam Area (Redwood Acres) Station**: Please park in the area to the left just inside the driveway by storage shed - PLEASE DO NOT block access to the building.
7. **City of Mill Spring City Hall**: Parking along Birch St. just up from City Hall or along 2nd St. across from City Hall

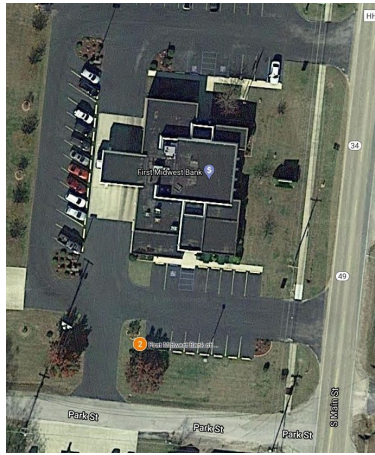

While at one of these locations, students are using a school resource and should conduct themselves with the same sense of respect and responsibility that is expected at school. Reports of misbehavior at these locations may be subject to disciplinary action as deemed appropriate by the student's principal.
